

Process & Packaging Machines Forum The new digital meeting of the packaging ecosystem.

How to optimize your investment projects in process and packaging equipment... until the end of the line?

By attending one or more of the interactive web conferences of the Process & Packaging Machines Forum!

This new webinar is intended for manufacturers from all sectors who wish to improve the performance of their manufacturing and packaging processes.

Schedule: a succession of short and inspiring sessions led by passionate experts, to browse through or dive into.

The first edition of the P&P Forum will be held in less than a month, on March 31, 2021. It is time to save the date in your diary and to choose, among the 12 conferences of the day those to attend in priority.

Opening round-table discussion: "Destination Zero Impact »

Our 6 guests will share their vision and experience of the first steps towards zero impact, and open the debate on the construction of a common roadmap for the packaging ecosystem.

Round table discussion moderated by Olivia Milan, Director of All4Pack, with:

- Michel Fontaine, President, Conseil National de l'Emballage (National Packaging Council)
- Valentin Fournel, Director of R&D and Eco-design Services, Citeo
- Guillaume Lebert, Sustainability Senior Scientist, Procter & Gamble
- Walid Hamida, Sustainability engineer & Breeam Assessor, Edeis
- Luc Desoutter, Sustainability Officer, Sidel
- Pierre Yves Moreau, Consultant, Visiativ

11 conferences on a variety of themes, so that everyone can find something to their liking.

Our guests will talk about investment strategy, improvement paths, and innovation, on subjects as varied as processes, IIoT, packaging, and marking, drawing on feedback from the food, pharmaceutical, luxury, and construction materials industries.

30-minute sessions to get straight to the point

The P&P Forum relies on a short and very qualitative format.

No more than 20 minutes of conference followed by a real Q&A time of 10 minutes. You'll be asking for more!

P&P Forum
March 31, 2021
from 9:30 a.m. to 5:30 p.m. (CEST)
